*EPS for the period 01 July 2021 to 30 September 2021 has been restated based on the new weighted average number of ordinary shares in accordance with para 64 of IAS 33.

Reason of Significant Deviation of EPS

EPS and NAVPS have been decreased due to significant increase of foreign currency conversion rate as well as shortage of power supply which have disrupted production and also effected production cost adversely.

30.02 Diluted EPS

No diluted EPS was required to be calculated for the period since there was no scope for dilution of share during the period under review.

30.03 The production capacity of the company has been gradually increased due to completion of its expansion plant, as a result sales capacity has also been increased steadily which shown positive impact in sales/revenue of the company compared with corresponding last period revenue/sales. The sales price per metric ton has also increased compared with corresponding last petiod sales rate per metric ton.
